

Computer Science Fundamentals One-Day Intro Workshops

Host a Workshop

We welcome school districts and other interested groups to host a free high-quality professional development workshop from an experienced computer science facilitator. The workshop will provide an intro to computer science, pedagogy, overview of the online curriculum, teacher dashboard, and strategies for teaching “unplugged” classroom activities. Workshops last 6-7 hours and will prepare teachers to teach the Code Studio courses for grades K-5.

Through the generosity of Code.org, school districts and interested groups in Kentucky may host a CS Fundamentals Workshop

**AT NO COST
(for a limited time)**

This is a value of \$70 per teacher for a room of at least 10 teachers

Code.org's Computer Science Fundamentals Course supports these standards:

- Computer Science Teachers Association (CSTA)
- Common Core English
- Common Core Math
- Next Generation Science (NGSS)

For more visit:
bit.ly/CSFStandards

All you need to do is ...

- Contact Monique Rice, mrice@kstc.com, to set up a workshop and set the date (Saturdays only during the school year).
- Provide a location with internet access
- Provide lunch for the participants and facilitator
- Advertise the workshop; at least 10 teachers must be enrolled in the workshop at least two weeks before the workshop date

You'll find a request form at
bit.ly/CSFStandards

AdvanceKentucky will provide ...

- In-person instruction from an experienced computer science facilitator
- An intro to computer science and pedagogy
- An overview of the online curriculum and teacher dashboard
- A printed curriculum guide containing course lesson plans
- Strategies for teaching “unplugged” classroom activities
- Classroom supplies for the “unplugged” activities
- A certificate of completion
- A bag of Code.org swag
